## Chlamydia screening made easy

Chlamydia is one of the most common sexually transmitted infections (STIs), and it often shows no symptoms. If left untreated, it can lead to serious health issues, including pelvic inflammatory disease and infertility, especially in women.

To improve early detection and treatment, HEDIS guidelines recommend annual chlamydia screening for sexually active women ages 16 to 24.

- AmeriHealth Caritas Pennsylvania Members can now use self-collection test kits at LabCorp and Quest Diagnostic Patient Service Centers.
- AmeriHealth Caritas PA CHC Participants can now use self-collection test kits at Quest Diagnostic Patient Service Centers.

These discreet, easy-to-use options help remove barriers to in-office visits, increase screening compliance, and contribute to improved HEDIS scores. By promoting self-collection, providers and health plans can enhance patient engagement and support better health outcomes.

## Post-office-visit Member and Participant experience survey

Members and Participants receive a Member/Participant experience text survey 30 days after visiting with their provider.

- The purpose of the survey is to provide real-time insight into our Members' and Participants' experiences.
- An added benefit is that it highlights trends we see on the annual CAHPS survey.
- Survey results to date show:
  - Members and Participants are satisfied with their provider appointments, with a performance metric of 90% or above in all responses.
  - The average appointment wait time was less than 45 minutes.

Please be sure that your team is aware of our appointment access to care standards and the language and translation services available for Members and Participants.

## 2024 Provider Satisfaction Survey Summary

AmeriHealth Caritas Pennsylvania sincerely thanks the practices that were able to participate in the 2024 Provider Satisfaction Survey, and we value your feedback and opinions.

**We are so encouraged and proud of your commitment to cultural competency.** Practices surveyed scored high in this category and are committed to providing culturally competent care to their patients. For example:

- **98%** use professional guidelines or best practices when working with Members from other religions, cultures, etc.
- **61%** conduct the medical visit using the Members' preferred language.
- **60%** indicated their staff received LGBTQIA+ cultural competency training, and, of those, **70%** received the training in 2024.

Thank you for your continued support of our Members and your dedication to **ongoing training** in the following areas:

- Cultural competency
- Medical bias
- LGBTQIA+ cultural responsiveness

## Home and community-based services (HCBS) Provider Satisfaction Survey summary

AmeriHealth Caritas PA CHC sincerely thanks the HCBS providers who participated in the 2024 Provider Satisfaction Survey. We value your insight and appreciate the time taken to complete the survey.

We are so encouraged and proud of your commitment to cultural competency. Providers surveyed scored high in this category and are committed to providing culturally competent care to Participants. For example:

- 98% use professional guidelines or best practices when working with Participants from other religions, cultures, etc.
- 67% conduct visits using the Participant's preferred language.

Thank you for your continued support of our Participants and your dedication to **ongoing training** in the following areas:

- Cultural competency
- Medical bias
- LGBTQIA+ cultural responsiveness

## The Updated 2025 AmeriHealth Caritas PA CHC HCBS Provider Claims Filing Instructions are now available online

- Updated Change Healthcare to Optum/Change Healthcare
- Changes to disputes and appeals addresses

To access the 2025 HCBS Provider Claims Filing Instructions simply navigate to the provider center at: **[www.amerihealthcaritaschc.com](http://www.amerihealthcaritaschc.com) > For Providers > Claims and billing > Claims filing instructions for HCBS providers.**

## Be involved — join our Participant Advisory Committee

AmeriHealth Caritas PA CHC hosts a quarterly Participant Advisory Committee meeting, and we are asking for your help.

The Participant Advisory Committee is a forum where Participants, providers, caregivers, family members, and direct care workers come together to help us make a difference.

The purpose of the committee is to provide our Participants with an effective means to consult with each other and, when appropriate, coordinate efforts and resources for the benefit of the entire CHC population in the zone, including people with long-term services supports (LTSS) needs.

The 2025 Participant Advisory Committee meeting schedule is as follows:

| Zone                  | Date                        | Time             | Location   |

### We are excited to share that we are actively recruiting a diverse group of Participants and providers!

- Do you know a Participant who likes to be involved in community meetings or organizations?
- Do you know a formal or informal caregiver who has expressed interest in advocating for others?

If so, we want to hear from them!

Please reach out to Community Relations Outreach team at [advisoryacpchc@amerihealthcaritas.com](mailto:advisoryacpchc@amerihealthcaritas.com) with the contact information of the potential committee member, and we will do the rest!

## Office of Long-Term Living (OLTL) critical incident reporting annual training is due by December 31

Provider and service coordination entity staff must be trained annually on preventing abuse and exploitation of Participants, critical incident reporting, and mandatory reporting requirements. OLTL offers provider and service coordination entity online training to meet this mandatory annual training requirement. After finishing each module, you will be linked to a webpage to register your completion and print your certificate. Note that you will need your provider number/service location or Federal Employee Identification Number (FEIN) to complete the registration page at the end of each module. **This mandatory annual training must be completed by December 31.**

Training for Incident Management and Protective Services is available on OLTL contractor Dering Consulting Group’s website: <https://deringconsulting.com/OLTL-Provider>.

## The updated 2025 AmeriHealth Caritas Pennsylvania and AmeriHealth Caritas PA CHC dental provider supplements are now available online

Note: **Additional prior authorization criteria may apply.** Please refer to most recent drug formulary and prior authorization information available online at: [www.amerihhealthcaritaspa.com](http://www.amerihhealthcaritaspa.com) > **Pharmacy > Pharmacy Homepage** or [www.amerihhealthcaritaschc.com](http://www.amerihhealthcaritaschc.com) > **For Providers > Pharmacy services**

## Save time! Submit all your pharmacy prior authorization requests online

Providers can submit electronic prior authorization (ePA) requests either through their electronic health record (EHR) software or via the following online portals:

- **CoverMyMeds**
- **Surescripts**

Please visit our websites for:

- A list of pharmaceuticals, including restrictions and preferences
- How to use the pharmaceutical management procedures
- An explanation of limits or quotas
- Drug recall information
- Prior authorization criteria and procedures for submitting prior authorization requests
- Changes approved by the Pharmacy and Therapeutics Committee

## No prior authorization required for fluticasone HFA inhalers for Members under the age of 19

As a reminder, AmeriHealth Caritas Pennsylvania formularies have aligned with the Pennsylvania Department of Human Services (DHS) Statewide Preferred Drug List (PA PDL) in updating the coverage status of the **fluticasone HFA inhaler** (generic Flovent HFA). **This drug is now covered without prior authorization for AmeriHealth Caritas Pennsylvania Members under the age of 19.**

Please consider this additional option when caring for your pediatric asthma patients.

Coverage status for other PA PDL Preferred Agents in the “Glucocorticoids, Inhaled” single-ingredient

inhaled corticosteroid (ICS) class remain unchanged at this time. Preferred agents include:

- Arnuity Ellipta
- Asmanex HFA
- Asmanex Twisthaler
- budesonide 0.25 mg/2 mL and 0.5 mg/2 mL (respules)
- Pulmicort Flexhaler
- QVAR Redihaler

## Consider prescribing preferred adalimumab biosimilar products

AmeriHealth Caritas Pennsylvania/AmeriHealth Caritas PA CHC adheres to the preferred and non-preferred status of drugs included in the Pennsylvania (PA) Department of Human Services (DHS) statewide preferred drug list (PDL), which includes Humira and several lower-cost biosimilar adalimumab products.

Humira is priced at approximately \$7,000/month versus the biosimilar products priced around \$1,000/month. Given the availability of biosimilar alternatives that provide the same clinical efficacy and safety at a significantly lower cost, we ask that you consider a biosimilar to help support the efficient use of finite health care dollars while maintaining quality care.

We are respectfully asking your practice to consider prescribing one of the PA PDL-preferred adalimumab biosimilars if any of your AmeriHealth Caritas Pennsylvania/AmeriHealth Caritas PA CHC patients are currently prescribed Humira or are starting adalimumab therapy. The biosimilars are:

- Adalimumab-fkjp
- Amjevita (adalimumab-atto)
- Hadlima (adalimumab-bwwd)
- Yusimry (adalimumab-aqvh)

Scan the QR codes below to access FDA fact sheets regarding biosimilars to address any concerns you may have regarding the safety and efficacy of these biosimilar agents.

## Help us improve Member/Participant and provider relationships by sharing your demographic data

At AmeriHealth Caritas Pennsylvania/AmeriHealth Caritas PA CHC we believe quality care starts with informed choice and culturally responsive connections between Members/Participants and providers. AmeriHealth Caritas Pennsylvania/AmeriHealth Caritas PA CHC collects, stores, and reports race, ethnicity, and language (REL) data from providers and their offices that may be made available to Members/Participants upon request.

By sharing your demographic information — including but not limited to race, ethnicity, and/or languages spoken — you help empower our Members and Participants to make informed decisions about their care, improve health equity, and support stronger health outcomes for the communities we serve.

This data allows us to:

- Provide Members/Participants with meaningful, choice-based information when selecting a provider.
- Tailor resources and services to meet the cultural and linguistic needs of our diverse Member/Participant population.
- Monitor and address health disparities across our network.

### Why is language data necessary?

The first step to strong patient-centered care is direct communication. Language is more than a communication tool: We express emotions, retain critical information, and make decisions in the language that is most preferred. Providing language data that is spoken by the provider and their staff is the first step in strong communication between patients and providers.

**Spoken language** refers to the language in which a Member/Participant prefers to speak about their health care.

**Written language** refers to the language in which a Member/Participant prefers to read or write about their health care.

### How do we collect this information?

- AmeriHealth Caritas Pennsylvania and AmeriHealth Caritas PA CHC requests its contracted provider network voluntarily share their REL data, as well as their office support staff's languages.
- AmeriHealth Caritas Pennsylvania and AmeriHealth Caritas PA CHC requests and collects network provider REL data using the same Office of Management and Budget (OMB) categories it uses to collect Members'/Participants' REL.

### How do we store and share this information?

REL data is housed in a database that is made available to Members and Participants.

1. Gender data is available through AmeriHealth Caritas Pennsylvania and AmeriHealth Caritas PA CHC provider directory.
2. Provider's language, staff's language, and additional language services are also available through the provider directory.
3. Information on race and ethnicity is only made available to Members and Participants upon request.

The collection of accurate race, ethnicity, and language data is critical in connecting Members and Participants with providers who may better understand their particular needs and language. Reliable data is crucial in tracking health care disparities and developing effective programs to address them. Thank you in advance for providing us with this information to ensure that our Members and Participants with cultural and linguistic needs have access to the best possible health care and services.
